## A Smooth Workflow

Your workplace will function more efficiently by putting print technology within everyone's reach. Brother's Balanced Deployment enables you to achieve a more cost effective print and imaging model, reducing wastage by utilising your resources according to the specific needs of your home office and office environment. And with your machine's compact size, you'll save office space, giving you more room to think and move.

Troubleshoot Anywhere, Anytime

BRAdmin Professional allows you to manage a fleet of printers easily and troubleshoot at any time with various functional platforms, which means no more unnecessary trips to the printer. You can administer your Brother network-connected products and use Network Administration Tools (BRAdmin) to view&the status of other SNMP compliant network printing devices. There is even more control with Device Management Software to effortlessly configure, maintain and manage all networked devices at anywhere and anytime without even being present at the machine.

Stay Secure

You can safeguard information throughout the entire printing process with Brother's secure printing, by tracking documents from the moment the printing button is pressed right to the finish line. Setting Lock will prevent unauthorized access to your Brother machine's settings, safeguarding information from any unauthorised personnel, while the Secure Function Lock feature prevents users from changing the default settings of the machine by limiting access to the menu settings.

Reduce Electricity Bills

This series is Energy-Star awarded, which means it has low power consumption, so you can keep costs down and profits up. You can also reduce your electricity bills with the Power Save Feature that only powers up when you need to print.

Faster Printing, Winning Results

Get ahead with high print speeds. Not only is it quick to produce results, this Brother monochrome laser printer and Multi-Function Centre (MFC) series leads in efficiency. See how this series performs when handling large amounts of print, with approximately 12,000 pages[†] on the super high-yield* toner. Its 500-sheet optional paper tray*also means you won't need to refill paper frequently.

PROFESSIONAL MONOCHROME LASER PRINTER AND MULTI-FUNCTION CENTRE SERIES

Put your business in front of the competition and win your clients over by delivering outstanding results in fantastic time.

- Work faster than ever with high-speed printing up to 40/42 (A4/Letter) pages per minute
- Share your printer and Multi-Function Centre series with gigabit ethernet and wireless network capability*
- Save paper with automatic double-sided printing
- Print direct anywhere with Mobile Printing
- Scan and copy multiple pages in one go with Automatic Document Feeder
- Stay in control with security features* and Network Administration Tools (BRAdmin)
- Save on cost per page with optional super high-yield toners* of approximately 12,000 pages[†]

Save Time

There is less waiting around with the super fast print speeds. Increase your efficiency and productivity by getting any print job done in an instant and give yourself more time to grow your business and meet those crucial deadlines.

Mobile Print

With mobile print it is easy to print your photos, email and PDF documents from your mobile device via the Brother iPrint&Scan application, Google Cloud Print and Apple AirPrint without downloading any drivers. You can also share your files by scanning directly to a mobile device.

Go The Distance

The large paper capacity of up to 250* sheets with the optional 500 sheets capacity paper tray requires fewer times to refill it.

Save Money

Ideal for high volume printing of approximately 12,000 pages[†], you will rarely run out of fuel and save on cost per page with a choice of standard, high and super high yield toners*. The Automatic Double-Sided Printing feature will also help you save on paper costs and help the environment, as you print on both sides of the paper. The toner save mode reduces printing costs.
