MONOCHROME INKJET FAX MACHINE

Mono Fax

Mono Copy

Handset

Automatic Document Feeder

Fax Easy Series  
FAX-1360

FAX-1360 is a mono fax machine that uses a single black ink cartridge, that guarantees low running costs. Quick and simple faxing can be done with 100 speed dials, which give you instant access to regularly dialed numbers. The 250-page memory is able to store incoming faxes, hence, safeguarding you against losing of important documents.

Besides having an integrated handset, FAX-1360 also has a fax forwarding feature that allows you to forward any faxes you received to another machine. This is absolutely useful when you are away from office for a long time. In addition, its dual access feature allows you to scan a document ready for sending whilst receiving an incoming fax. Thus, saving you time.

FAX-1360 is also a convenient mono copier with functions similar to that of a standalone copier. It can make up to 99 multi-copies at a copy speed of 18 pages per minute.

For crisp, clear fax outputs with FAX-1360, use Brother original LC57BK black ink cartridges.

### SPECIFICATIONS

Model	FAX-1360
