### High-Quality Professional Prints

Brother's MFC-885CW offers a variety of printing options. You can generate outputs ranging from draft prints to high-quality photos – bringing you cost-saving versatility for every business need. With Brother's Innobella™ ink and paper, you are guaranteed top quality resolutions, with smoother, sharper, fade-resistant printouts.

### Compact & Ergonomically-Designed

\*ITU-T No.1 Chart, Standard Resolution    \*\*Applicable for Windows® only

Print, Fax, Copy and Scan – all great features packed into a tiny footprint that fit into tight corners and small workspaces. MFC-885CW's fax capability allows for colour faxing of up to 100 speed dials, through a 14.4K bps modem. This translates to an incredible speed of approximately 6 sec\* per page. In addition, the 32MB memory stores up to 400 pages\* of outgoing and incoming faxes.

Further, MFC-885CW comes with paperless PC Faxing, which lets you receive\*\* faxes in soft copy, even when the machine is turned off. When hooked up to a network, PC Faxing is even enabled for sharing among users, making it a true Network Fax.

### Digital Communication Centre

MFC-885CW is the only model in the series to offer complete Digital Communications capabilities for the SOHO. MFC-885CW features a stylish cordless handset that supports hands-free calling, and is expandable to connect up to 4 handsets. It also doubles up as a Digital Message Centre with an answering machine that can store up to 20 sec of user outgoing messages, and up to 99 incoming messages.

### Wireless or Wired Network Connectivity

Hook it up via LAN, or via WLAN; MFC-885CW is versatile enough to be operated as a standalone all-in-one – or a shared solution among a group of users connected to the wired network, or wireless network.

With our SecureEasySetup™ application, it automatically configures the network and security settings with a wireless router that support this technology, for wireless connectivity with an almost plug-and-play simplicity.

- Built-in 802.11b/g wireless interface
- Built-in 10/100 Base-TX network interface
- USB Connectivity

### Maximum Cost Savings

MFC-885CW is not only a space saver – it is a cost saver as well. The machine comes with a 4-ink cartridge technology, allowing replacement of only the colour cartridge that has run out of ink - which not only helps you save cost, but also protect the environment.

### Wide 4.2" Colour LCD

MFC-885CW's widescreen colour LCD gives you the ability to access on-screen help information and set-up. The wide 4.2-inch LCD screen lets you enhance photos from a digital camera media card or USB flash drive easily. You can also preview incoming faxes on the screen before printing through our Fax Preview function, to eliminate "junk" faxes.

With the bundled easy-to-use photo editing software, the wide screen is useful for viewing images before and after editing. Other capabilities include image cropping and viewing a slideshow of the images on the media card.

Auto correct of skintone colours

### Host of Other Office Functions

Brother understands the space and budget constraints faced by SOHOs. Therefore, we have included a host of other office functions within MFC-885CW to make it a true office companion.

- Automatic Document Feeder – holds up to 10 sheets
- Photo editing software – including FaceFilter Studio, which is an easy-to-use software to allow auto correct, skin tone enhancement, scenery enhancement, red eye removal, photo conversion to monochrome and sepia.
- Enhanced scanning functions like Scan-to-Image, Scan-to-OCR (optical character recognition), Scan-to-Email, Scan-to-File, Scan-to-Media, as well as network scanning which allows PC-to-router-to-MFC scanning and vice versa
