

# Embroidered Delicates

*Dress your tea set with beautifully embroidered napkins, overlay and organza roses.*

### materials:

- For serviettes:
  - 6 x (10" x 10") cotton fabric
- For table overlay:
  - 25" x 25" cotton tabling fabric
- Marking pen
- Ruler
- Embroidery machine and hoops
- Water soluble stabiliser
- Embroidery threads
- Embroidery machine needle no 70
- Sharp curved scissors
- Cutwork and candlewick CD from Into Embroidery
- Basic sewing notions

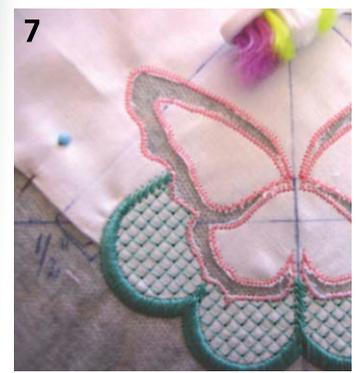

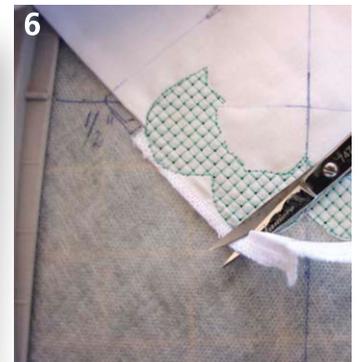

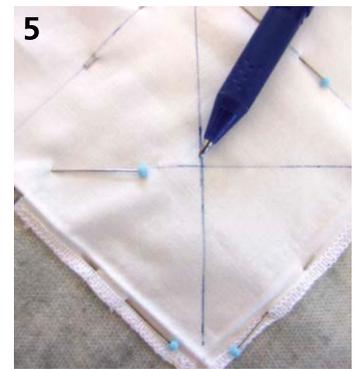

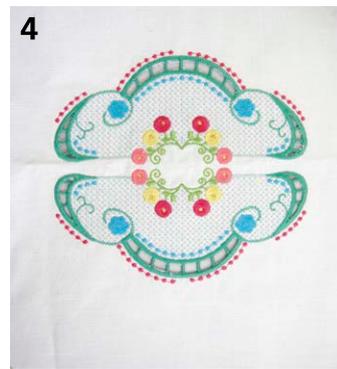

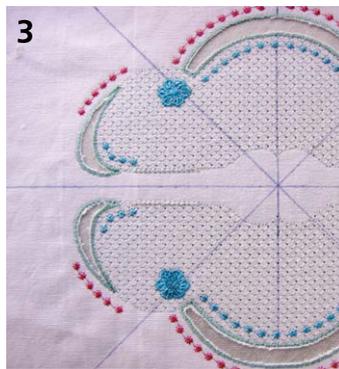

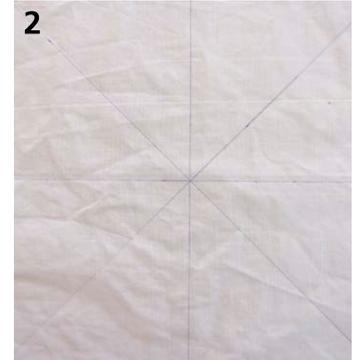

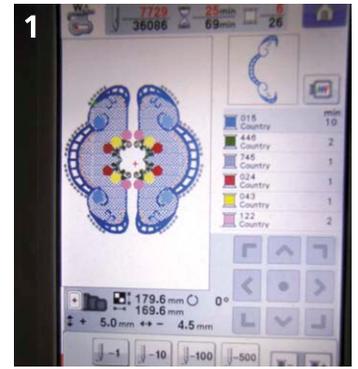

### materials:

#### The roses

- Organza and voile fabric
- Embroidery threads of your choice
- Gift Rose CD
- Florist tape
- Brooch pin

*This project was made by Jolanda Ingram of Brother Kempton Park  
Rose embroidery designs by Louisa Meyer from

at your side

### Cute IDEA!

Dress your table to impress!  
Fold this cute napkin skirt  
at your next high tea  
engagement and be the  
talk of the tea party!

Make these gorgeous  
organza ribbons (far right)  
and use them to pin up  
your organza tablecloth on  
the side of the table.

## instructions:

### making the over lay

**1** Mark the overlay fabric. Horizontally, vertically and diagonally.

**2** On each line also make a cross mark 8" from the centre point. Then also mark 3,5" square in all 4 corners, as well as these centre points. Overlock the edges and topstitch in the same way as the serviettes. Embroider the same design as for the serviettes on each corner. Here you can omit the cutwork detail. On each 8" mark embroider design 5523. (This design is a free download on the website: [www.brother.co.za](http://www.brother.co.za).) For the centre I used design 7515. I added a second one and also mirrored it using the editing functions of the Brother V3 embroidery machine. You can also do cutwork on this design if you desire.

**3** Rinse overnight and iron well.

### making the serviettes

**4** Serviettes: Mark a 3.5" square in one corner of the serviette and also mark the centre points. Overlock the edges and then clip 1/4" from the marked line. Fold the rest a 1/4" in and topstitch.

**5** Hoop water soluble stabiliser in a hoop and mark a cross. Now pin the corner of the serviette to align the markings. Make sure the bottom 1/4" seam is not folded in. Choose the butterfly design (7504) and start stitching. After the trelliswork has stitched, stop the machine and cut away the bottom pieces.

**6** After the second stop, remove the hoop and cut where the cutwork should be.

**7** Complete embroidery in colour of your choice. Complete all serviettes in similar manner. Rinse and leave overnight in water to dissolve all the stabilizer.

**8** When dry, iron so that it forms the bottom of a skirt. From cardstock cut a bodice with the ScanNCut machine and insert napkin skirt into the bodice. Wrap a ribbon around her middle and tie a bow, this will keep the napkin in position.

### making the roses

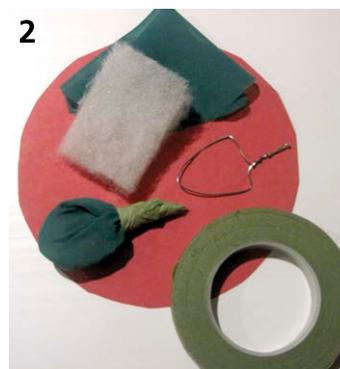

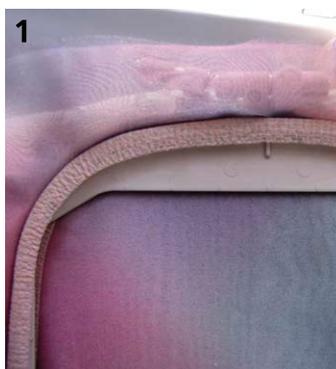

**1** Hoop 2 layers of organza in a hoop. To prevent the organza from slipping in the hoop - use *NO HURT PLASTER* and wrap it around the inner hoop.

**2** Use the same thread in the bobbin as on top. Complete all the pieces as per the CD instructions.

### making the centre bud

**3** Fold a piece of batting around a piece of oval shaped wire. Cut two circles of organza and cover the wire. Pull in at the centre. Wrap florist tape around the bottom to neaten.

**4** Now complete by adding the rest of the layers until the rose is complete. Sew a brooch pin to the back and also add a tassel if you wish to. The rose is now complete to use as a decoration on your table. If you wish to make roses as decorations you have to insert a dowel stick to make a stem. **CH**
